SUMMARY

Undergraduate student with a strong frontend focus and hands-on experience building and shipping real-world apps solo, from idea to published product. Passionate about solving practical, everyday problems through simple and reliable digital tools. Currently strengthening JavaScript and core programming fundamentals to build more capable, AI-assisted products.

EDUCATION

Galgotias University — B.Tech, Computer Science & Engineering (Artificial Intelligence)

2024 – 2028 · CGPA: 7.49

G.B. Pant Senior Secondary School, Srinivaspuri (CBSE) — Class XII

2022 – 2023 · 71%

TECHNICAL SKILLS

Web	HTML (primary focus), CSS, JavaScript (strengthening), React Native
Languages	Basics of C and Java, Python
Focus areas	Frontend development, UI/UX, offline-first apps, AI-assisted development
Cloud	AWS (Cloud Practitioner, Solutions Architect Fundamentals), Google Cloud (Vertex AI), Red Hat / Linux
Tools	Git, GitHub, VS Code, Supabase

EXPERIENCE

Marketing Officer — Skillyug

Oct 2025 – Aug 2026 · Remote

Artificial Intelligence Intern — CodeAlpha

Jul 2026 – Aug 2026 · Remote · Language translation tool, FAQ chatbot

Data Analysis Using Python Intern — Auspify Technologies

Jul 2026 – Aug 2026 · Remote

PROJECTS

Workify — Offline-First Productivity App · *HTML, CSS, JavaScript*

- Solo-built a single-file, offline-first PWA using localStorage to help a field professional manage daily work digitally, replacing a manual paper-based system.

Kaksha — Coaching Center Management App · *Frontend & UX*

- Solo-built the frontend and user experience for a coaching center management app handling attendance, fee tracking, and test scores.

PhishTrace — AI Phishing Email Detection · *Smart India Hackathon 2026*

- Led a 6-person team exploring AI-based detection of phishing emails; progressed from ~400 to the Top 100 teams (61st) over a 36-hour build.

Real Banking System (JavaBeams) — *Java*

- Group project simulating core banking operations; built as part of first-year coursework.

CERTIFICATIONS

Java & C Programming, OOP, Java Collections, Computational Thinking — GUVI · Red Hat System Administration I & Linux Fundamentals · AWS Cloud Quest: Cloud Practitioner & Solutions Architect Fundamentals · Prompt Design in Vertex AI — Google Cloud · Design Thinking — A Primer — NPTEL (IIT Madras)

ACHIEVEMENTS

- Smart India Hackathon (SIH) 2025 — ranked 41st out of 50+ teams at the university-level screening; served as team presenter.
- Smart India Hackathon (SIH) 2026 — led Team PhishTrace to the Top 100 (61st) out of ~400 teams at the university-level round.
- Completed the iOS Student Developer Program Bootcamp — Infosys & Apple.
- 99 problems solved across LeetCode, GeeksforGeeks, Codeforces and CodeChef, tracked via Codolio.
